MEDHINI SH

Web Developer

Happy me with 3 years of experience in web development, UI/UX design, and digital marketing. Proven ability to create and deliver high-quality designs that are both visually appealing and user-friendly. Strong problem-solving and communication skills.

EXPERIENCE

WordPress Developer

SKKYEE FEB 2024 – Present

- Led the design, development, and maintenance of WordPress websites for clients, focusing on seamless user interactions and responsive design.
- Customized and extended the functionality of WordPress plugins, particularly for forms and interactive features, improving user engagement.
- Provided ongoing support by troubleshooting technical issues and ensuring fast site performance through code optimization and server-side improvements.
- Conducted site audits, security checks, and implemented updates to ensure websites remained secure and compliant with best practices.
- Optimized website speed and performance, using tools like Google PageSpeed Insights and GTMetrix, ensuring optimal load times and mobile responsiveness.

Graphic Designer

Star Knowledge OCT 2021 – SEP 2023

- Responsible for website and software development, writing maintainable and reusable code
- Create quality mock-ups and prototypes from UI/UX designs, ensuring high-quality graphic standards and brand consistency
- /Provide advice to the marketing team on website and app optimization opportunities and supporting implementation with the digital agencies
- Help to research, analyze and provide suggestions for new software solutions
- Collaborate with internal and external stakeholders to manage IT requirements for website and digital marketing services
- Collaborate with back-end developers and web designers to improve usability
- Actively review website/app performance – offer recommendations to the marketing team
- Test and optimize websites, code, and assets for maximum speed and scalability over multiple devices and browsers
- Maintaining and updating already-existing websites, resolving problems, and performing security audits
